

ARMADILLO® Stainless Kit

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

The **ARMADILLO Stainless** is our premium series splice case for the most demanding applications. It is designed to offer superior performance and versatility for virtually any application.

Features

- Re-usable & Re-enterable
- Re-entry kits not required
- Utilize torque bar for end plate positioning
- Accepts both end plate designs
- Used in underground, aerial or buried applications
- Made of corrosion resistant materials
- Utilize ARMADILLO Coupling for expanding cable opening
- Kits include top & bottom shell halves, LOCKBAR Assemblies, Torque Bars and two 2-section End Plate kits (except 3-section End Plates with 12.5")
- Bonding kit (where included) includes shield connectors, pair protectors and bonding braid.
