False Dead-end

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Phone: 123456789 - Email: name@yourdomain.com

Description

PREFORMED False Dead-ends are a fast, safe, and economical method for false dead-ending strand. They are designed to be applied without any special tools, and because False Dead-ends are made from the same material as the strand, they will hold the same published rated breaking strength.

Features

- Fast, easy, safe installation
- No special tools needed
- Will hold same published rated breaking strength of strand
