

# SR Series™ Solar Ready Shade Structures

**Weight:** 0.00kg

**Dimensions:** 0.00cm x 0.00cm x 0.00cm

## Description

The **SR Series™** shade structures are engineered and optimized to site-specific applications and PV solar installations. The rugged yet sleek structures feature a simplified design with an integrated PV module mounting system resulting in faster assembly rates and reduced labor on every project. Available in a variety of structural types and finishes, these solar support structures feature tilt angles up to 10° and optional solutions for water and snow protection.

## Features

- Variety of structure types and finishes
- Site Optimized Designs
  - *Reduces overall material costs*
- Landscape, Portrait, or Side Tilt Orientation
  - *Maximize energy production, and simplify electrical wiring*
- Integrated Grounding
  - *Reduces material and labor on every project*
- Installation Services
  - *Turn-key, code approved, professional installation in less time*
- Integral Wire Management
  - *Reduces labor, meets code and provides a clean and professional appearance*
- Module Clamp Assemblies
  - *Faster installation with a 1/4" turn and no loose parts, Lock-In-Place RAD™ Bolt*
