

End Caps

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

Heat-shrink End Cap with adhesive.

Characteristics

- Superior mechanical and electrical properties
- Quoted with hot-melt adhesive
- Resistant to UV and chemical agents
- Pressure and waterproof
- Unlimited shelf-life

Application/Suitability

- Protection against humidity and pressure for XLPE, PVC, PILE or rubber type jackets cables, lines and pipes of 4 – 135mm diameter. When heated, the adhesive melts and penetrates into all uneven parts and hollow spaces.
