

Pole Plug

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

The **POLE PLUG** is designed to close existing holes in steel and composite utility poles or other steel equipment in order to reduce or eliminate whistling due to the wind and insect intrusion. The plug provides an economical means of reducing the incidents of insect infestations. This reduces possible injury to linemen and loss of productivity.

Features

- Eliminates/reduces pole whistling
- Eliminates/reduces insect infestation
- Installs in seconds
- Positive snap in lock
- Fully UV stabilized
- Resistant to environmental stress cracking
- One piece design
- Covers hole dimensions from 9/16" - 1-1/4"
- Compatible with poles and equipment enclosures with wall thickness of 1/4" or less
