

Cable Sheath Reinforcing Kit

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

The **Cable Sheath Reinforcing Kit** is made up of one plastic cable insert and one plastic shim. Both are inserted between the metallic cable shield and the core wrap prior to applying any mechanical telecommunications closure. Cable Sheath Reinforcing Kit provides added integrity under areas that must withstand clamping pressures.

Features

- Prevents crimps in the cable sheath.
- Protects cable during any closure application.
- Can be used with any type of closure.
- Provides added integrity under areas that must withstand clamping pressures.
- The kit comes in two sizes to accommodate a range of cable sizes.
