

COYOTE[®] Mounting Brackets

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

A full line of mounting hardware is available for the COYOTE[®] Closure Series ranging from one of our smallest closures, the [COYOTE[®] LCC](#), to our largest offering, the 9.5"x28" [COYOTE[®] Dome Closure](#). Mounting solutions include aerial strand and ADSS mount, pole and wall mount, and underground applications including handhole and manhole mounting brackets.

Features

- Aerial mounting brackets contain flexibility to adjust in the vertical direction.
- Low clearance aerial mounting brackets provide the ideal amount of clearance with existing lines below.
- Pole mounting brackets contain the ability to use a banded or lag screw approach.
- Most mounting brackets are constructed with 11 gauge stainless steel grade material.
