

AWL System

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Short Description

Description

AWL System

The AWL System is designed to be mounted to Transmission Towers, Communication Towers and other structures to warn aircrafts of the presence of the structure. PLP standard AWL systems utilize LED light technology which offer longer life and lower power consumption than traditional lights and are secured using PLP's mounting hardware.

Features

- Custom-designed solutions to meet the customer's requirements
- Utilizes LED light technology
- Integrated lights and power supply
- Meets International Civil Aviation Organization (ICAO) and Federal Aviation Administration (FAA) requirements
