Short Description

Description

The design of the **COYOTE ACE** offers the greatest flexibility to address the multitude of connection options required to support home and office networks. Interchangeable inserts allow the enclosure to be configured to support fiber/coax applications, fiber/CAT5 applications, coax/CAT5 applications, coax only applications and fiber only applications. The enclosure can also be used below the COYOTE Fiber Wall Plate to support additional fiber slack storage or applications requiring 1x4 coax splitters. A splice tray kit is available to support internal splicing if required.
