

## Power Rail™ Integrated Grounding System

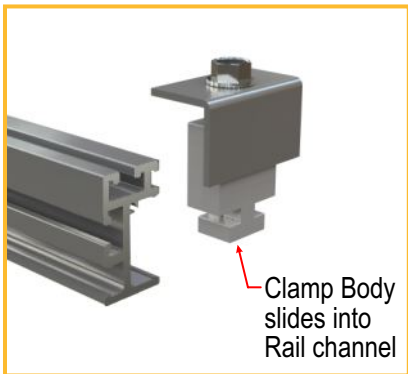

PLP Solar offers a fully integrated grounding solution for our Power Rail™ mounting system. The primary component is the third-party tested and certified AMP clamp™. This module clamp penetrates and electrically bonds the module frame directly to the mounting rails, thus eliminating the need for separate bonding washers. PLP Solar also offers bonding jumpers and rail grounding lugs to complete the installation. The Power Rail integrated grounding components are easy to install and provide a safe and code-compliant installation.

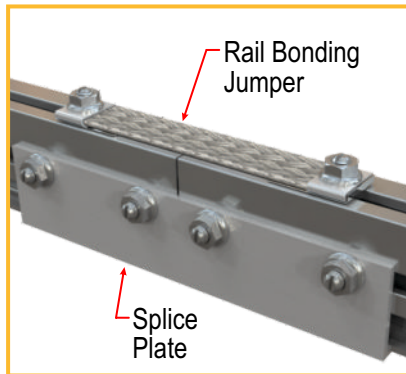

**AMP Clamp:** Self grounding mid-clamp penetrates anodized module frame, effectively bonding modules to rails.

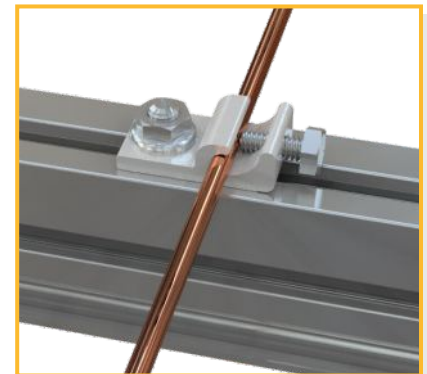

**RAD Hardware:** Patented drop and twist design locks bolt into rail for quick and easy top down mid-clamp installation.

**Universal End Clamp:** Fits wide range of modules and all Power Rail profiles.

**Rail Bonding Jumper:** Bonds rail-to-rail splices. Only used on rail with Grounding Lug.

**Grounding Lug:** Use one for each row of modules.

## List Pricing

### AMP Clamp™ - Integrated Grounding RAD™ Mid Clamp

Part #	Description	Quantity	Weight Per Unit (lbs.)	Price
GMC-28-33-RAD	Module Mid Clamp for 28-33 mm Thick Frame	1-49	0.08	5.40
		50-99		4.50
		100+		3.90
GMC-34-39-RAD	Module Mid Clamp for 34-39 mm Thick Frame	1-49		5.40
		50-99		4.50
		100+		3.90
GMC-40-46-RAD	Module Mid Clamp for 40-46 mm Thick Frame	1-49		5.40
		50-99		4.50
		100+		3.90
GMC-47-52-RAD	Module Mid Clamp for 47-52 mm Thick Frame	1-49		5.40
		50-99		4.50
		100+		3.90
GMC-53-59-RAD	Module Mid Clamp for 53-59 mm Thick Frame	1-49		5.40
		50-99		4.50
		100+		3.90

AMP Clamp with RAD Hardware  
GMC-XX-XX-RAD

RAD™ Fastener is now patented.

### Grounding Hardware

Part #	Description	Quantity	Weight Per Unit (lbs.)	Non-Discountable Price
WEEBL-8.0-KIT*	Rail Grounding Lug	10-99	0.19	5.65
		100+		4.65
WEEBL-8.0-RBJ-KIT*	Rail Bonding Jumper	10-99	0.11	7.80
		100+		6.45
