

Guy Markers

PREFORMED™ Guy Markers are used for identifying Down Guys or other wire and cable installations where anchoring devices are exposed to pedestrian and/or vehicular traffic.

Profile Options

PREFORMED™ Guy Markers are available in four basic profiles:

- Full Round – 1-1/2" and 1-1/4" OD (Outer Diameter)
- "B" Profile "heart shape" – 1-1/2" effective OD
- Two Piece Spiral Round – 1-1/4" OD, helically slit to create two halves
- Round-Overlapping – 1-1/2" OD

Material

Guy Markers are available in Polyethylene and PVC materials as shown in the tables. All materials employ UV inhibitors to enhance life span performance.

Color

Guy Markers are available in yellow, orange, and gray. For other available colors and combinations of colors, consult PLP.

Reflective tape is available as an option. If the desired configuration is not shown in the catalog tables, contact PLP.

Attachment Devices

PREFORMED™ Guy Markers utilize four basic attachment devices. These are:

- Cable Tie/Universal Cable Tie
- LOOP LOCK® Pin (patented)
- Integral Helical Pigtail (used in conjunction with Short Lock Strap or Cable Tie)
- Stainless Steel Clamp

LOOP LOCK® Pin:

A unique, one-way method that applies through the marker's tube and loop of a GUY-GRIP® Dead-end. Once applied, the tube is "locked" onto the Dead-end and cannot be removed easily by vandals. Removal and reinstallation of the marker by authorized personnel is possible with a new pin, which can be supplied separately.

Integral Helical Pigtail:

Attached to the inside of the marker tube and wraps on to secure to the strand. Generally fits a strand range of 3/16" – 1/2" diameters and provides a unique one-way slip down motion for ease of installation. The installed pigtail resists upward movement. The pigtail is made from specially formulated material designed to provide high strength, tear resistance, and no corrosion.

Universal Cable Tie:

A positive locking device to deter vandalism. Recommended on dead-end hardware that restricts the use of the LOOP LOCK® Pin.

Guy Markers

Attachment Devices Continued

Short Lock Strap and Cable Tie:

The Short Lock Strap is used with the pigtail device and helps deter vandalism. The **Cable Tie** is supplied as an alternative to the Short Lock Strap where hardware restricts its application.

Stainless Steel Clamp:

The stainless steel clamp is riveted to one end of the guy marker. The clamp's position gives linemen an option to install the guy marker with the clamp on top or bottom of the tube. The stainless steel clamp quickly and easily secures the guy marker to down-guy wire by tightening the 9/16" bolt, included in the clamp assembly. This guy marker features a collapsible profile that wraps on itself when installed on down-guy wire.

Universal Marker

Two Piece Spiral Round Markers:

Designed to provide increased visibility for many guying or cable applications. It can provide coverage from the ground line, around fittings and above normal reach depending upon installation.

The addition of a third Helical section can provide up to 360° coverage for diameters over 1". This method may require special application techniques as outlined in the application procedure.

Limited coverage is possible for diameters over 1-5/8" or over large, non-circular fittings. Consult the application procedure for special techniques.

Guy Markers

Economy Guy Markers

Do not let the word “Economy” fool you. PLP Economy Guy Markers are made in the USA of the same quality, UV stabilized Polyethylene material as our standard guy markers. We have merely simplified the designs to create a streamline manufacturing process. All PLP Economy Guy Markers are 1-1/4" diameter, round, 8 feet long, and are available with choice of attachments; LOOP-LOCK pin, Universal Cable Tie or a tube with no attachment device.

Features

- One piece designs
- Lightweight
- Easily installed on strand sizes 3/16" – 1/2" (4.7 – 12.7 mm)
- Installs on down guys in seconds
- Ships in boxes, bags or bulk on pallets
- Special pallet pricing available

Material

- Manufactured out of Polyethylene
- Premium UV inhibitors for a long life span
- Nylon pin or cable tie

Guy Markers

Wrap-Around Guy Marker

The PREFORMED™ Wrap-Around Guy Marker is designed to identify down guys or other wire and cable installations where anchoring devices are exposed to pedestrian and/or vehicular traffic. The Wrap-Around Guy Marker is available with a choice of three attachment devices; Universal Cable Tie, LOOP LOCK Pin, Stainless Steel Clamp or just as a plain tube.

Features

- 8 foot length
- Larger 2.75" profile ideal for covering exposed anchor
- One piece design
- Lightweight
- Easily installed on strand sizes 3/6" – 5/8" (4.7 – 15.9 mm)
- Standard 1.5" diameter profile and large 2.75" diameter
- Reflective options available
- Deters vandalism
- Installs on down guys in seconds
- Special pallet pricing available

Material

- Manufactured out of Polyethylene
- Premium UV inhibitors for a long life span
- Nylon pin or cable tie
