COYOTE® Axcess Solutions™ Fiber Wall Plates

The **COYOTE Axcess Solutions Fiber Wall Plates** are compact fiber organizers used to create a fiber demarcation point inside the home, office, or apartment. Internal fiber routing features control bend radius and allows for slack storage outside of the wall cavity. Specific designs also provide for splicing inside the wall plate. Each wall plate is produced from flame retardant compounds, is easy to install and is capable of being mounted directly to a standard electrical junction box or a wall.
Features and Benefits

- Designed to store a pre-connectorized pigtail for connection to a mating adapter

- Mounts to standard electrical junction boxes or wall

- Internal fiber routing provides bend radius control

- Hinged door provides open access for easy fiber connection or removal

- Internal adapter with automatic shutter provides protection from laser light output

- Flame-retardant
