

COYOTE® STP

The **COYOTE STP (Service Termination Point)** is a small scale, cost effective closure which provides an alternative to traditional network interface devices, while offering much greater applications flexibility. The robust latch system, paired with an integrated over-molded cover, allows for quick re-entry and creates a secure seal over a wide range of cable profiles. The STP is ideal for use where the optical network terminal (ONT) is on the inside of a premises.

Features and Benefits

- Dimensions: 10.1" x 5.0" x 1.9" (257 x 126 x 49 mm)
- Max Splice Capacity: 12 Single Fusion, 4 Mechanical
- Max Adapter Quantity: 2 Simplex SC or 2 Duplex LC
- Grommet Quantity: 2 (Multi-Hole Grommets Available)
- Grommet Cable Diameter Range: 0.100" – 0.425" (2.5 – 10.8 mm) and Flat Drop Cable
- Applications: Indoor/Outdoor Premises, Pedestal, Wall/Pole Network Interface Device (NID)
- Designed and tested in accordance to Telcordia® GR-771-CORE Above Grade, IP-67 Rated Requirements
- Constructed out of rugged UV-stabilized, flame-retardant material (UL94-5VA Rated)
- Robust latch system and intergrated over-molded cover creates a secure seal and provides quick re-entry into the closure
- Removable splice platform allows splicing and connections to be made outside of the closure

▶ The COYOTE® STP has a robust latch system and integrated over-molded cover that creates an IP-67 seal and provides quick re-entry into the closure. The STP has a removable splice platform that allows grommet and cable restraint application as well as splicing and patching to occur outside of the closure's main body. The integrated splice block accepts 12 single fusion splices, 4 mechanical splices or (1) 1x2 or 1x4 PLC connectorized or non-connectorized splitters.

▶ The STP can be configured to support splice and drop applications using traditional cable (Dielectric, ADSS, or Shielded), blown fiber cable, pushable drop cable, or microtube cable. An adapter bulkhead can be added to accept (2) Simplex SC or (2) Duplex LC adapters. For shielded drop cables, a ground stud is integrated into the base.

▶ COYOTE® STP Applications

The COYOTE® STP is a small scale, cost effective closure that offers application flexibility for the last connection point in an outside plant network. It can be mounted on the side of a premises, pedestal, or pole. The STP is ideal for use where the optical network terminal (ONT) is on the inside of a premises.
