

## SAFETY GUY-WIRE DISPENSER

The **Safety Guy-Wire Dispenser** is designed to provide a functional and safe way of paying out strand. It can be used with guy wire, wire rope, cable, conductor, etc. The dispenser eliminates the hazards of “runaway” coil ends.

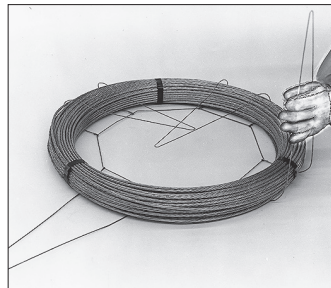

### FEATURES AND BENEFITS

- Installs around strand coils in seconds
- Pay-out strand with one person
- Simplifies inventory maintenance
- Improves coil handling
- One-time use application
- Eliminates “runaway” coils
- Occupies minimal truck space
- Lightweight

## USAGE

1. Fold out the legs.

2. Bend the legs over the coil.

3. Twist at least 2" of the legs together until the wire cage is tight.

4. Turn the wire cage over and pay-out from the open side. Tuck the end back into the cage.

## ORDERING INFORMATION

### Safety Guy-Wire Dispenser

Catalog Number	Standard Carton Quantity	Typical Size Coils Accommodated	Leg Length	Wire Size
			in (mm)	
SGD-0700 (Standard Size)	50	500 ft 7/16" 250 ft 1/2" Strand 23" by 9" Triplex Coils	24 (610)	14 gauge
SGD-0701 (Jumbo Size)	25	500 ft 1/2" Strand	30 (762)	12 gauge

**NOTE:**

- Accommodates any size coil, provided about 2" of the end of each leg can be twisted.
- The size coil each size can encompass depends upon the coil's girth, which is the combined diameter and width x 2. The Standard size will accommodate a girth up to 63". The Jumbo size will accommodate a girth up to 75".
- The Standard size is designed to withstand a 15-foot free-fall impact of a 200 lb coil. The Jumbo size will withstand a free-fall impact of a 300 lb coil.
