PLP® Arborist Products
Eye-Bolt with Nut

General Information

PLP Forged Steel Eye-Bolts for tree cabling are designed to be used in traditional methods. PLP thimbles are hot-dipped galvanized to ASTM A153 standards for the best corrosion resistance. Correctly sized nut included to aid in getting the job done right.

Each size is laboratory tested to ensure proper performance at the advertised working loads. TREE-GRIP™ Dead-end and Thimbles make cabling installation easy, all you need is the strand. Available in nine sizes to work in a wide range of applications.

PLP now offers a wide range of tree cabling/bracing products to fit arborists' needs. For information on the entire line of tree care products, please visit preformed.com or contact your local PLP representative.

Features

- Available in 9 different sizes for a wide-variety of applications
- Use with PLP TREE-GRIP Dead-ends and thimbles for quicker tree cabling
- Working loads of 1,500 lbs., 2,600 lbs., and 5,200 lbs. for best performance

PLP Reliability

Preformed Line Products has been a dependable manufacturer of high-quality products since 1947.
