PLP® Arborist Products Eye-to-Eye Turnbuckles

General Information

Eye-to-Eye Turnbuckles are made of drop forged, hot-dipped galvanized steel and are used to apply and adjust tension on tree cabling. Eye-to-Eye Turnbuckles have elongated eyes on each end to reduce stress on the eye and provide an easier connection with other hardware.

The Turnbuckles are designed to be used with PLP Heavy-Duty Thimbles and TREE-GRIP™ Dead-ends for a variety of tree care cabling and bracing solutions. Eye-to-Eye Turnbuckles have working loads of 1200 to 2200 pounds and will fit the needs of any certified arborist.

PLP now offers a wide range of tree cabling/bracing products to fit arborists' needs. For information on the entire line of tree care products, please visit preformed.com or contact your local PLP representative.

Features

- Available in 4 sizes for use with multiple tree hardware applications
- Made of drop forged steel for strength
- Hot-dipped galvanized steel for corrosion resistance
- For use with all industry standard cabling sizes from 3/16" to 3/8"
- Laboratory tested to PLP standards

PLP Reliability

Preformed Line Products has been a dependable manufacturer of high-quality products since 1947.
