

COYOTE[®] Fiber Wall Plate

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Short Description

Description

The **COYOTE Access Solutions™ Fiber Wall Plates** are compact fiber organizers used to create a fiber demarcation point inside the home, office or apartment. Internal fiber routing features control bend radius and allows for slack storage outside of the wall cavity. Specific designs also provide for splicing inside the wall plate. Each wall plate is produced from flame retardant compounds, is easy to install and is capable of being mounted directly to a standard electrical junction box or a wall.

Features

- COYOTE Fiber Wall Plate
 - Compact Size: 4" W x 6" L x 1" D (10.2 cm x 15.2 cm x 2.5 cm)
 - Designed for storing a pre-connectorized pigtail for connection to a mating adapter
 - Hinged door provides open access for easy fiber connection or removal
 - Internal adapter with automatic shutter covering laser light output
 - Available colors: White and Almond
 - Maximum internal slack storage: 5 ft (152 cm) of 2 mm jacketed fiber or 3 ft (91 cm) of 3 mm jacketed fiber
 - Fiber entrance ports through the back of wall plate
 - Kit includes SC/APC adapter mounted inside and mounting fasteners
- COYOTE Splice & Store Fiber Wall Plate
 - Compact Size: 4.5" W x 5" L x .87" D (11.4 cm x 12.7 cm x 2.2 cm)
 - Designed for splicing and storing a pre-connectorized fiber pigtail
 - Removable cover secured with fastener
 - Available color: White
 - Slack Storage: 8 ft (243 mm) of 2 mm or 4 ft (122 mm) of 3 mm jacketed

fiber

- Fiber entrance ports through back and bottom edge of wall plate
- Kit include LITE-GRIP sleeve for retention of splice protector
