

Tree Guard

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

Tree Guards are designed to protect bare conductors, fabric-covered or plastic-covered cables and fiber optic cables against mechanical abrasion caused by tree limbs or other obstructions.

Features

- Fast, easy installation without disconnecting the wire
- Made out of high-impact polyethylene
 - Strong abrasion resistance
 - Strong weathering endurance
 - High dielectric properties
