

WEDGE-GRIP™ Dead-end

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

WEDGE-GRIP Dead-ends are designed to simplify the costly, labor intensive job of cabling trees. The simple housing and wedge assembly terminates EHS and Common Grade strand by simply sliding over it, and with a turn of the cap, the strand is held in place. The WEDGE-GRIP Dead-end eliminates the need to twist strand or alter its integrity in any way. The result is a reliable cable termination that maintains 100% of the published rated breaking strength of the strand, and took only seconds to apply.
