Description

The **Double Sheath Cable Blocking Kit** is used on double sheath cable in an ARMADILLO® Closure or ARMADILLO® Stainless case. The kit contains plastic envelopes and sealing tapes for fastenin polyurethan resin mold around inner and outer sheaths.

Features

- Special sealant rings and resin block prevent water from entering and air from escaping between cable sheaths.
- Application procedure includes instructions for preparing both single and branch cable openings.
- Each kit includes: two plastic envelopes, resin kit (dual component), resin stirring stick, sealant tape, application procedure.
