

BLACK-JACK™ Closure

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

The **BLACK-JACK Closure** is filled with POLY-BEE Sealant to provide long-term protection for direct buried cable splices (individual or modular connection). The sealant forms a barrier to protect splices against the harsh elements of nature.

Features

- Incorporate a water-block system consisting of a soft cable grommet and a gasket seam seal
- Two designs available
 - BLACK-JACK 25-Pair is available in both in-line and butt splice designs
 - BLACK-JACK 50-Pair is designed to incorporate both in-line and butt capabilities with one design
- One-piece closure shell shipped with entire water-block system in place
- Pre-filled with POLY-BEE Sealant (no resin mixing required)
- Closure can be buried immediately after installation (limited prep-time/no set-up time)
- Bonding bridge(s) included in kits prevent cable pull-out
- Flexible shell hinge, closing clamp, and bonding hardware that make for an easy installation
- RUS Listed
