

COYOTE® DTC8

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Short Description

Description

The **COYOTE DTC8** is the new largest member of the **DTC (Drop Termination Closure)** family. The COYOTE DTC8 provides the ultimate level of application flexibility for fiber drop distribution applications. The closure can be configured with a range of fiber organizer systems to support splice, distributed splitter and drop applications using traditional cable, blown fiber cable, pushable drop cable technology or microtube cable. Organizers to support pre-connectorized drop applications as an alternative to more costly proprietary hardened drop cable systems are also available.

Product Spotlight

Features

- Flexible grommet sealing system supports a wide range of flat or round cable profiles
- Factory installed sealing materials
- Reenterable and reusable
- Designed to GR-771 Generic Requirements for Fiber Splice Closures
- Constructed with flame retardant UV stabilized material
- Hinged collar system provides quick access. (No special tools required).
- IP-68 Rated

Specifications

- **Size:** 12" x 8.8" x 3.5" (305 x 225 x 90 mm)
- **Max Splice Capacity:** 48
- **Max Adapter Capacity:** See documents for adapter options

- **Grommet Quantity:** 8 - See documents for grommet option
